Excited to Get There

The Ukarumpa community is anxious for Todd to come and manage the store. His background and skill set fit perfectly with the position. He is continuing to work for Universal HVAC right now until we are closer to being fully funded. All of our current support is going toward our one-time sending expense which is now close to 60%! We are planning to leave in January.

We found a little sun visiting family in Bend this summer.

PNG Info:

“For the last fifteen years, the *Yopno* have worked to build a runway, primarily to bring the Word of God into their community. The *Yopno* people, in traditional dress, met the Kodiak, SIL-PNG’s newest aircraft, which brought their translated New Testament and Psalms.”

Prayer Requests

- Pray for prayer partners and financial partners to get us to PNG.
- Pray for our Work Permits to be accepted quickly so that we can apply for Visas.
- Pray for the Ukarumpa school as they decide whether or not to start an NILD program that Cathy would teach in.

Work Permits in Process!

We finally received the remaining documents to complete our work permit application. Now we can apply for work permits from the Papua New Guinea government. Once work permits are granted, we can start the Visa applications. Please pray for patience (for us) and promptness (on the part of the government) to complete this process. Thank you so much for your prayers and support. It’s such an honor to have you with us in this process.

- Todd & Cathy
