## Happy Valentine's Day . . . All month

Christmas in Ukarumpa was a new experience indeed. We missed family and friends, which was expected, but to be in the tropics when everything in you says it should be close to snowing was strange. We enjoyed a candle-lit Christmas Eve service with the community and then spilled out of the meeting hall into the clear night sky that felt like the most comfortable Oregon summer night.

The coming of the New Year brought us to a full year here in Papua New Guinea. ([See our blog for more on that.](#)) Now we get to celebrate our favorite family holiday—Valentine's Day. We see Valentine's Day as an opportunity to teach our kids about the true meaning of Love and the only One who gives it to us in its purest form. It is also a time for us to think about those special people in our lives that we care so deeply about. Last year at this time we were in training and without the ability to communicate easily with those we love, so we are thankful to be able to send you our love this year!

Christmas Eve with summer night weather.

We are truly humbled to be here and watch God meet all of our needs through the team of people he has orchestrated to support and pray for us. We want you to know how much we appreciate you. This opportunity, though difficult at times, is an amazing opportunity for our family to really be a part of the Body of Christ in action. Thank you for being a part of the work God is doing here in Papua New Guinea!

## Sending you Love!

### Praises and Prayer Requests

- Praise God for the safe trips Todd has had to get supplies and that his back is remaining stable.
- Praise God for the therapy work with Alyssa and the other student, who are both making progress.
- Please pray for the details of Cathy attending the next level of NILD training.
- Please pray for clear direction about our future and what God has for us.

### NILD update

Cathy is ready to attend the next level of NILD training so that she can continue working with Alyssa and the other student currently in therapy at the school. She also hopes to be able to take on more students in the 2013-2014 school year. Up until a few days ago the training wasn't even being offered in the Philippines. Now we are hearing that it may be a possibility. Please pray with us for this possibility to become an opportunity.
